

French Make Concessions To Germans

Although Claim Waived For
Nationals On Railroads,
Deadlock Persists

ANOTHER MEETING SCHEDULED TODAY

Reich Delegates Say Stage Is
Critical — Herriot Calm
Regarding Situation

LONDON, Aug. 13.—After two conferences lasting five hours, the French and German delegates to the International Conference on the Ruhr, which was held on the question of the military evacuation of the Ruhr, today decided that the conference would meet again at 9 o'clock tomorrow morning in another effort to reach an agreement.

During today's session, the French and Belgians waived their claim to maintain their nationals on the German railways, but the Belgians really are not so sure.

We are in the midst of negotiations which are progressing normally and which will be continued tomorrow.

The Germans were not so calm in their estimate of the negotiations, which Foreign Minister Brüning regards as being in a critical stage. Prime Minister Brüning, MacDonald, of England, and the other conference members are expected to lend any assistance possible to the Belgians in their effort to resist the military evacuation of the Ruhr.

While both the Germans and the French said that the terms of the proposed Convention of 1923 were not discussed today, it was understood that the French had definitely for guarantees of liberal treatment.

The Germans declare that a delay in the evacuation of the Ruhr might result in a permanent change in the French Government.

A meeting of the "fourteen" nations is to be held tomorrow if the French and Germans reach a settlement on the Ruhr deadlock.

WHEAT POOLS GET SUPPORT

Australian States Agree To
Loan Money—Crop Estimated
At 140,000,000

LONDON, Aug. 13.—(Canadian Press Cable)—The Daily Telegraph's Sydney correspondent says that the New South Wales and West Australia State Governments have agreed to support the wheat pools.

A preliminary survey of prospects for the Australian wheat crop is 16,000,000 bushels, assuming that there will be no adverse climatic conditions.

It is probable that the wheat pools will be particularly successful in the marketing of 140,000,000 bushels, which will be available for export.

Japan has taken 350,000 tons of Australian wheat this year.

After Seeming Agreeable

CALGARY, Alta., Aug. 14.—The Hon. James Murdock, Minister of Labor, who is making an attempt to settle the strike in District 18, United Mine Workers of America, was forced to remain over here last night when the operators and miners' conference was still deadlocked after being in session continuously for two days.

At an early hour this morning officials of the miners' organization were still in session considering the compromise proposals advanced by Mr. Murdock.

Although no hope for an early settlement was held out, considerable progress has been made toward effecting a settlement, reports from semi-official sources indicated last night.

Early last evening was expected to be the last night of the strike, but Mr. Murdock had expected to leave, but the miners refused to make the necessary move.

The Minister of Labor at the moment is in the city, but he is expected to leave for the province tomorrow morning.

The Committee then retired into conference of their own, but at midnight had failed to give Mr. Murdock the answer which he expected.

PRACTICAL JOKE HAS BACKFIRE

Man's Willingness To Please
Teachers Results In Mar-
riage Announcement

VICTORIA, Aug. 13.—When practical jokes on the special train which brought the teachers here for their convention started a rift in the hearts of one of the most genial Victoria delegates, who is bachelor, they did not expect to be confronted with an announcement of his marriage which came through by telegram to Victoria today, with a request for confirmation.

It appears that the catalyst bachelor willingness to help the ladies needed one tormentor with a plan to marry him off, and on Sunday evenings the "bride" and "bridegroom" were showered with confetti at the railway station.

The "bridegroom" took it all in good part and when much presented him made no objection to the idea of them the gifts would always be carefully treasured. In the end, however, the guides on the train declared the train was pursued over hundreds of miles without embarrassment to the lady.

Taking Lydia E. Pinkham's
Vegetable Compound

Jamesburg, N.Y.—"I was very nearly excited and discouraged and had no faith in my condition. For the time I was not able to get up as I suffered with pain in my back and with weakness. I took Lydia E. Pinkham's Vegetable Compound, and the liquidation of my trouble was complete. Today I am real well and a bouncing house and do the same. I recommend your medicine to every woman who complains, and you may use my letter to help any one else who is suffering through the change of life now and I hope the Vegetable Compound in the house, ready to take when I feel the need of it. Mrs. ALICE D. DAVIS, 203 W. Second St., Jamesburg, N.Y."

Often some slight derangement may cause a general upset condition of the whole system indicated by such symptoms as nervousness, backache, lack of ambition and general weariness. Lydia E. Pinkham's Vegetable Compound will be found a grand medicine for such troubles. In many cases it has removed the cause of the trouble.

TIPOPS PROTEST TRAINING LACK

Schools Scored By Lynch—
Efforts For Better Organiza-
tion Urged

TORONTO, Aug. 13.—The temperance league to make the apprenticeship, and there is a growing list of schools where so-called typists are turned out in six months, declared President-elect James M. Lynch, at the annual convention of the International Typographical Union, at the annual convention held today. Mr. Lynch was greeted with much cheering.

"Specialization in this trade means the turning out of printers with limited experience. We must get back to the system that turned out dual trained printers in every branch of the trade," Mr. Lynch said.

Declaring that it was of highest importance to direct the organization's attention to the betterment of composing rooms, Mr. Lynch said so far as the arbitration principle was concerned, he stood by it.

"Another question which confronts us is reconstruction," he said. "We have established beyond the 44 hour week but there remains room for improvement which must follow after the night."

"Admitting we have made wonderful progress in the establishment of the 44 hour week we must not deceive ourselves. There are thousands of non-union printers in offices where members of the International Typographical Union formerly performed their work. If we have the room unconquered they will develop a force."

"Office, my friends, do not organize themselves. This movement concerns all the members today," Charles Francis, of New York, representing the Printers' League, an honorary member of the I.T.U., urged the formation of a national organization of employees and employers.

He is the president of the Typographical Union, a national industrial union.

C. J. YORATH POINTS TO ALARMING SITUATION

Commenting on the reduced number of persons paying taxes on vacant property since 1923, Commissioner Yorath, in the report he is preparing on civic affairs, will declare that the situation in this respect is alarming.

Mr. Yorath points out that between 1920 and 1923 there was a reduction of 13,124 persons paying such taxes, while the reduction in taxes payable has been \$1,138,432, or sixty-four per cent.

The alarming phase of the situation, in that it shows that the increasing difficulty of obtaining revenue, while many citizens are in arrears on property taxes, higher or worse for civic employees, and other expenditures.

\$100 Worth of New Subscriptions to the Bulletin Will Give You Over 1,000,000 Votes During the Next 11 Days

Use Your Telephone

Call your friends and remind them of the promised subscription near the close of the Contest. You need every one. The one you pass by today may be the one you will need in the final count of votes. Remember you have only eleven more days to go—\$15,000 in cash prizes is hanging in the balance. You want the major prize—\$2,000 cash.

Secure Every Possible Second Payment Subscription and Earn the Difference in Greater Votes

During the contest you secured a one-year subscription to The Bulletin from Mr. A—, which counted 80,000 votes. Today, or before the contest closes, you secure another year's subscription from Mr. A—. The second subscription would entitle you to 140,000 votes, or 200,000 in all for a two-year subscription from Mr. A—.

Where a candidate has run out of territory he can safely start back after second-year payments. There are dozens of cases where a person will gladly pay for another year or two to help out his favorite candidate.

Take your vote schedule and figure up how many extra votes you can get by securing second payments on subscriptions.
